Abstract not available for JP63215763

Abstract of correspondent: EP0273146

A flame retardant polycarbonate composition, comprising in admixture:
an aromatic polycarbonate resin, an ortho-methyl substituted aromatic dihydroxy compound, and an
additional flame retardant additive, said ortho-methyl substituted aromatic dihydroxy compound and said
additional flame retardant additive being present in an amount sufficient to improve the flame retardant
properties of said aromatic polycarbonate resin.
